West Jakarta, DKI Jakarta

IT Developer and Computer Science graduate with hands on experience as a Project Manager, Fullstack, and AI Engineer. Experienced in leading end to end software projects, designing system architecture, developing ERP solutions, and building AI-powered automation using multi-agent, RAG, and AI agents integrated with enterprise data. Skilled in Python, Next.js, PostgreSQL, BPMN, system design, with experience translating business processes into scalable technical solutions.

Education.

Universitas Pembangunan Nasional Veteran Yogyakarta 🇮🇩 - Yogyakarta

Aug 2022 - Jan 2026

Bachelor of Computer Science (S.Kom), 3.52/4.00

Professional Experiences

Raho Premier - Duta Merlin, Petojo Utara, Gambir, Jakarta

Jun 2026

Pusat

IT Developer

- Led ERP development as both Project Manager and Full-Stack Developer, overseeing system architecture, development planning, implementation, and project timelines.
- Designed and developed fullstack custom ERP features and workflows based on business and operational requirements.
- Architected an AI agent system integrated with the ERP, including agent workflows, database integration, multi agent system, and RAG architecture using Openclaw framework.
- Developed AI-powered WhatsApp chatbot dashboard solutions using Next.js to automate internal processes and customer communication.

UPN Veteran Yogyakarta - UPN Veteran Yogyakarta

Jul 2023 - Jan 2026

Assistant Lecturer

- Assisted the lecturer in delivering Computer Network course (TCP/IP, Network Subnetting, Physical Layer, Routing, VLAN), Programming Algorithm (Decision, Looping, Array) to over 4 class each week.
- Guided students during classroom discussions, assignments, and hands-on networking activities
- Evaluated student work, provided technical feedback, and helped clarify complex concepts

Laboratorium Jurusan Informatika UPNYK - Yogyakarta, Indonesia

Aug 2024 - Jan 2026

Laboratory Assistant and Laboratory Administrator

- Delivered practicum instruction and technical guidance to 2 practicum class weekly.
- Developed and administered practical examinations for computer network and system modules.
- Managed daily laboratory operations, schedules, equipment readiness, and administrative documentation. (App installation, wire management, UPS checking)
- Prepared, maintained, and troubleshooted 20 computer workstations per session to ensure uninterrupted laboratory activities.

PT Harrisma Buwana Jaya - Yogyakarta, Indonesia

Sep 2025 - Jan 2026

IT Support Intern

- Assisted with the installation and setup of wired and wireless network infrastructure at customer locations.
- Performed UTP cable crimping, RJ45 connector termination, and network connectivity testing.
- Installed, configured, and tested Wi-Fi routers and access points, including basic connectivity troubleshooting.

Organisational Experiences

IF-H International Classroom - Sleman, DI Yogyakarta

Aug 2022 - Jan 2026

Class President

- Served as Class President from the first semester until graduation, representing students in academic and administrative matters.
- Coordinated communication between lecturers and students regarding class schedules, assignments, examinations, and important announcements.
- Led class discussions, gathered student feedback, and helped resolve academic or organizational issues through effective coordination and decision-making.

KKN BN UPNYK 83 2025 - Klaten, Central Java

Jul 2025 - Aug 2025

KKN Team Leader

- Led and coordinated the KKN team in planning, assigning, and executing community service programs.
- Managed communication between team members, university supervisors, local authorities, and community representatives.
- Monitored program progress, resolved operational issues, and ensured all activities and administrative reports were completed according to schedule.

Veteran Integrated Parade - Sleman, DI Yogyakarta

Aug 2024 - Dec 2024

Publication and Documentation Coordinator

- Coordinated publication, documentation, and content planning for a university-wide annual event.
- Developed content concepts and coordinated visual communication needs across event activities.

Himpunan Mahasiswa Jurusan Informatika UPNYK - Sleman, DI Yogyakarta

Apr 2024 - Mar 2025

Staff Medinfo

- Produced graphic design and social media content for student association activities.
- Developed content concepts and edited visual materials for organizational publications.

Technical Skills

- **Programming Language**  (2026): Python, JavaScript, C++, Swift, SQL
- **Frameworks and Libraries**  (2026): Frameworks & Libraries: React, Next.js, Django
- **AI and Data**  (2026): Machine Learning, Computer Vision, Multi-Agent AI Systems, RAG Architecture
- **IT and Infrastructure**  (2026): Computer Networks (Routing, Subnetting), IT Support (Helpdesk), System Troubleshooting
